

CHAMPION INSTITUTE

◀ WE BUILD CHAMPIONS ▶

Champion Institute is a place of unparalleled commitment to restoring the Champion stride.

Through our projects and services, the heroic spirit of purpose is called forth in every youth

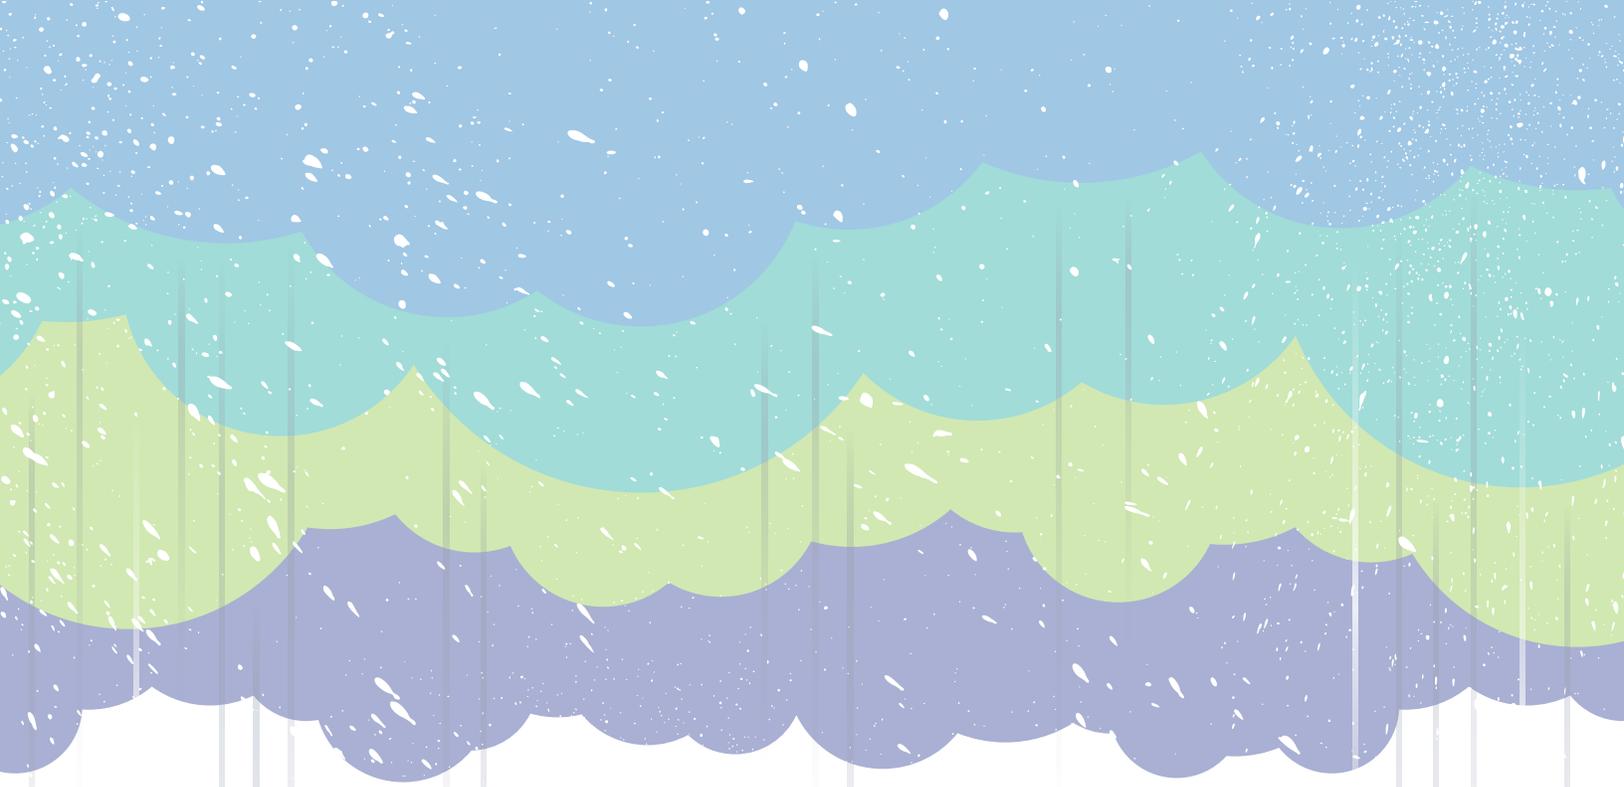

Every child is born with potential, a path to take.

He is dreaming, developing and training for victory.

He is on course, on schedule, and moving forward.

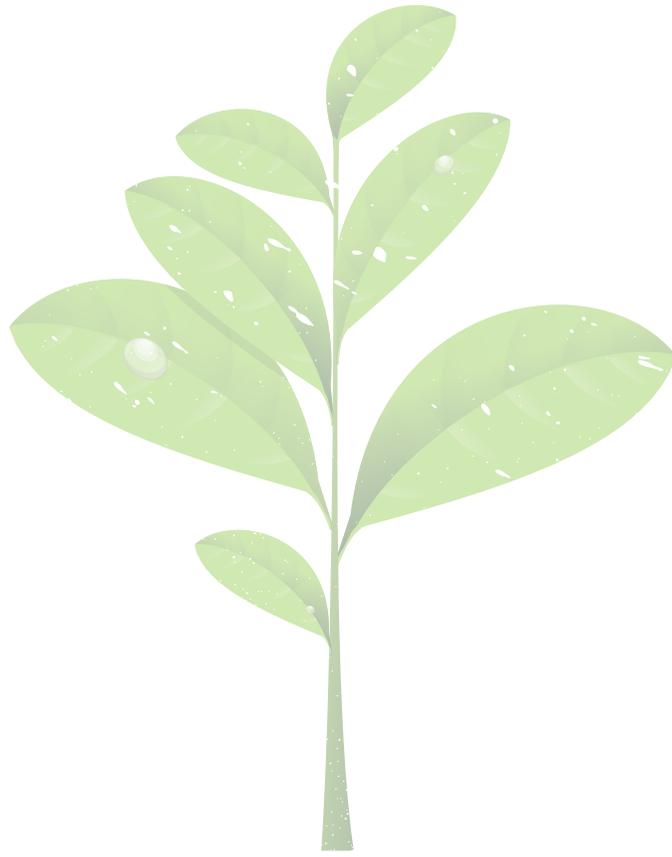

Sometimes a storm comes, washing away the path forward, burying potential underneath a mountain of circumstance.

Through all these circumstances, however, the DNA of a potential champion exist.

Given the opportunity for restoration, the champion stride can be restored.

This can happen if the youth can find an anchor and be encouraged to press forward, dream of triumph, and keep the torch lit, believing the sun will shine again.

There's a place out there.....

Champion Institute is a place for restoration.
It's a place where the seed of hope is planted.

It's a place where fields of dreams are
cultivated and where restoration yields
Champions.

Our Mission

We exist to inspire, coach and train fatherless boys to win in life

We envision a world in which fatherless youth win in life by achieving their dreams and reaching their God-given potential. We take the concept of coaching off the field, and into the lives of fatherless boys to win in life. We believe in the potential of each youth we serve and aspire to give them the guidance and hope for their future that is so often lost in the absence of a caring father. We hold their hand for a season, while teaching and developing them to step out into the real world and chase their dreams. Champion Institute exists to steadfastly develop those who have no one to believe in their promise.
